

Hebei Qinglong County Gehetou Primary School Holds Project Cooperative Partners Exchange and Training – in the course of supporting projects, local leadership project design and implementation capacities were cultivated

On the second day of the Mid-Autumn Festival, Zigen Hebei Qinglong Project Coordinators Li Guangdui and Chang Fulin and responsible cadres from Dashendian, Gehetou, Caochang and Jieling villages and schools in Gehetou Township, Qinglong, and Fengguo and Tumenzi of Tumenzi Township, using Zigen pilot “One Village One School” projects as the starting point, jointly discussed “How to more efficiently carry out project design, application and implementation”.

This was the third occasion of Zigen’s use of its projects to launch “project cooperative capacity building” type of exchanges and training in Qinglong. This type of project is low-cost, and its subject matter has relevancy and is conducive to increasing mutual understanding between civil organizations and basic-level rural schools and villages in order to design quality projects and strive for more vigorous societal resources to provide learning platforms.
