

Miles Traveled in Thousands with Clouds and Moon

---Successful End to Zigen China “Rural Teacher New Concept Training” 2010 Annual Session

On September 2nd, the “Rural Teacher New Concept Training” project was completed successfully in Lan Cang, Yun Nan. This marked a perfect end to the 2010 annual training program for Zigen China .

This annual program started in March and has been through phases from project studies, building up study websites, and “Seed Teacher” on-site training. Zigen China has cooperated with Southwest University to compose the “Training Text Book” and the “ Training Manual” for this project. The on-site teacher training sessions were held in Heibei Qing Long, Hubei Fang Xian, and Yunnan Lan Cang. The program covered areas from Northeast to Southwest, with a combined distance of over eight thousand kilometers , and together trained 120 “seed teachers” from seven provinces.

With the finish of the 2010 program, the project group will evaluate the results and get ready for the second training project (to train 40 seed teachers per 1000 teachers for each county).
