

## The First Phase of Environmental Education by Anhui Normal University

On July 24, 51 volunteers completed a ten-day environmental education activity. The first phase of primary and middle school environmental education was supported by China Zigen and carried out by the Anhui Normal University Communist Youth League.

It was a multi-purpose educational program which included (1) the compilation of the Rural Environmental Handbook, (2) training of 50 environmental volunteers (3) the training of more than 300 environmental messengers from 10 rural primary and middle schools in Nanlin County and (4) the implementation of environmental activities in 10 villages and (5) a summing up session of exchanges of experience.
