

Fall Activities in Beijing Xi San Qi Community Center

In September 2010, Zigen held fall activities for migrant workers in the community center in Xi San Qi, Beijing .

Computer Classes are open to students in the 5th and 6th grades. An English class that is focused on community youths is officially open. This time the English teacher is Mr. Dudeling, a volunteer from the U.S. His class is very popular with the migrant workers.

Zigen's Beijing Xi San Qi Community Center regularly supports leisure and entertainment activities for migrant workers, including board games and movies. The center furthers the feeling of community and creates an equal and comfortable environment for migrant workers.
